

What's New in Club Hub 2.0?

IMSA's events are sorted sequentially below.

Click on a poster to enlarge it. Click on the header to sort by those categories. Click on an event name to set up an email reminder. Events are filterable, too: click on a date, host, time, or location to filter by those properties.

Date	Poster	Event	Host	Description	Time	Location
Sunday 9/6/2015		Club Hub 2.0.0 (tentative)	Club Hub	This is a test of the RemindMe! Service. If this works, then Club Hub 2.0.0 will be released.	12:00 PM	Everywhere
Tuesday 9/8/2015		IMSA Ignite GA	Ignite	At this first meeting for the year, Ignite will decide on future meeting times in addition to constructing a list of people who join. We will discuss potential topics to begin researching in October, and a sample presentation will be shown.		B110

Club Hub 2.0 presents an entirely revamped layout that highlights the important details for every event: date, poster, event name, host name, description, time, and location.

It also introduces a fresh minimalistic design—an organized and clean contrast to the clutter of an inbox.

Posters are nice! (But not required!)

The New Club Hub gives color to plain text by placing posters alongside event information. Clicking on a poster produces an enlarged view of the image.

But whereas the old Club Hub's poster wall required a poster for every event, Club Hub 2.0's new layout presents both postered and poster-less events alike with equal elegance.

Organize it with Filter and Sort.

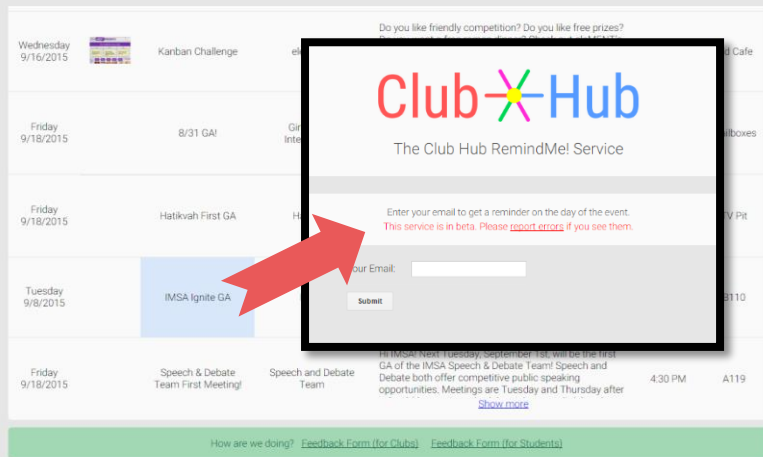

Create order from the chaos by focusing on the events you want. In Club Hub 2.0, you can click on the labels in the black header bar to sort by those categories.

Clicking on a specific event's date, host, time, or location adds a filter that removes all other events from the view. Now you can see which events fit your time and interests with ease.

Never miss an event again.

The newly polished Club Hub RemindMe! Service allows you to set up an email reminder for the events you want. Clicking on an event's name will take you to a form to sign up for an email. Then, on the day of the event, Club Hub will automatically send you a reminder for that event.

(This service is currently in open beta, so some parts of it may be a little buggy.)
